Notice of Family and Medical Leave Usage and Obligations

If you have at least 12 months of state service and have worked for the state at least 1,250 hours in the past 12 months, you are entitled to 12 weeks of Family and Medical Leave (FMLA) during the fiscal year. Under FMLA, if the leave you have requested (whether sick leave, annual leave, or other paid or unpaid leave) is due to one of the following reasons, this leave will count toward your entitlement for Family and Medical Leave during this fiscal year:

- Birth of a child *
- Placement in your home of a child for adoption or state-certified foster care *
- Your serious health condition (illness, injury or pregnancy), or
- To care for your spouse, child or parent who has a serious health condition

If you are applying for leave for one of these reasons, you must use all available paid leave before taking unpaid leave. However, you may only use paid sick leave for situations that are normally eligible for sick leave.

In addition to medical certification required for sick leave and/or sick leave pool, you must provide medical certification within 15 calendar days of the date of this form to your employing department if you are taking leave due to your own serious health condition or the serious health condition of your spouse, child or parent. Medical certification forms are available from your Employee Services office.

While you are on paid leave, your benefit coverages will continue and any premiums you normally pay for coverage will be deducted from your pay. If you take unpaid leave for one of the reasons stated above, the state will continue to pay its contribution toward your Health coverage. However, you must continue to pay your share of premiums or some of your benefit coverages may end. Only those benefits **fully** paid for by the state contribution will continue if you do not pay your share of benefit premiums. You will receive a bill for these benefits each month while you are on leave. You must pay the premiums within 30 days of the due date shown on the bill.

If your leave is due to your serious health condition, you must present a fitness-for-duty certificate from your doctor before you can return to work.

If you take a leave for one of the reasons stated above, you will be reinstated to your job or similar job when you return from leave, unless you would not otherwise have been employed at that time.

You will be expected to check in with your supervisor periodically while on leave to inform him/her of your status and expected date of return. You may be asked to provide a recertification of your (or a family member's) medical situation each 30 days while you are on leave due to a serious health condition.

*If you do not qualify for FMLA and you are taking leave due to the birth of a child or adoption of a child younger than 3 years, you may take up to 12 weeks of parental leave.
